WORK EXPERIENCE

Recruiter SANDF (South African National Defense Force)

Duration June 2012 –

Position Lieutenant

Achievements: The above job was very demanding and stressful. I had to work and train for very long hours and during the winter season. Despite that, this job has taught me what is to be expected in the workplace as an employee. During my training I experienced a lot of difficulties but through the determination I have for getting what I want I surpassed my fears and I can proudly say that I can work under pressure and cooperate well with others.

Recruiter IZIKO Museums of South Africa (Cape Town)

Duration January 2013 – December 2013

Position Intern

Achievements: The above job was very demanding and stressful because I was exposed to a lot of positions where I had to have different roles. I was doing my Internship here where I was a volunteer for a year (12 months). I was working for their **CALL CENTRE** for 6 months, where I was doing **Data Collecting & Capturing**. I was also a **Curator**, an **administrator**, and an **Environmental educator**, I had to write reports based on what I was tasked to do and also did research.

WHAT I'VE LEARNT FROM MY WORK EXPERIENCE

Below is a summary of what I have learnt from my work experience

- **Discipline and punctuality.** During my training, I had to be up as early as 4:00am, prepare and get ready to start the day at 6:00am and close down at 17:00 pm depending on the mood of the instructors the time can also be extended.
- **The ability to work under pressure:** Well, because we were working and training as team so there were some difficulties because we had to finish up on time. The supervisors were always around, so it was so tough, but at some point it taught me a lot about working with other people. Now I am positively ready to work under whatever circumstances/conditions.

My aim and hope is that I may be beneficial to my employer so that I may make a positive and visible contribution to the business.

Additionally, I have applicable knowledge in the following laboratory instruments and additional skills that I have so far learned during the course of my 3rd year:

Mapping Maps using GIS, Google Earth, Geocoding.

TitrationUV-Vis spectrophotometer.

Spectrofluorimeter.

High Performance Chromatography.

Gas and Ion Chromatography

Atomic Absorption Spectrophotometer

Ionic Balance
